

We are seeking a dynamic and highly motivated

## Application Engineer

Remote within 150 mi of the Twin Cities

*For over 50 years, Polytec has been providing laser-based non-contact measurement solutions to the world's most dynamic companies. We are a global company based out of Germany with subsidiaries worldwide. Polytec has built an exciting company culture through strong teamwork, transparency, customer satisfaction and mutual respect. We thoroughly believe that every member of our team can make a difference. If you would like to be a part of this exciting environment email us at [hr@polytec.com](mailto:hr@polytec.com)*

**Do you have an Agricultural Science, Food Science or related technical degree and passion for technology? Would you enjoy working with the world's leading seed, feed & food engineering teams helping them develop rapid automated measurement breakthroughs to improve their processes?**

Join the Polytec applications team and become a part of the worldwide market leader in optical measurement technology. We work to help our customers succeed in high-impact industrial applications. We expect our team members to truly understand customers' measurement needs and work collaboratively to ensure success for everyone.

### As an Application Engineer at Polytec:

- You will get to interface with the top seed & feed companies in the US and work with world leaders in agricultural food processing.
- You will be a key technical interface to customer helping them succeed implementing our automated rapid analyzers into their process.
- We will help you develop expertise in near infrared testing so that you can support our sales team and customers.
- You will be provided in depth technology and product

### Requirements:

- A technical degree and a strong technical background
- Social empathy, a strong technical aptitude and positive work attitude
- Ability to travel to customers in North America and to Polytec HQ in Germany
- Work and live in the Midwest
- Employment eligibility to work in the USA

### Benefits:

- An international, equal and diverse work atmosphere
- Great benefits including 401k match, very good health, dental and vision coverage
- Excellent opportunities for personal development and professional advancement
- Competitive compensation
